SUMMARY
Backend developer building REST APIs in Python and PostgreSQL.

EXPERIENCE
Software Engineer | Bluebonnet Logistics
Aug 2023 – Present
• Designed REST APIs with FastAPI serving 200 internal users.
• Reduced p95 query latency from 900 ms to 150 ms by adding PostgreSQL indexes.
• Wrote unit tests with pytest and set up GitHub Actions CI.
• Containerised services with Docker.

PROJECTS
Rate Limiter Service | Python, Redis
• Implemented a token-bucket rate limiter backed by Redis.

EDUCATION
B.S. in Computer Science, Lone Star State University, 2019 – 2023

SKILLS
Technical: Python, FastAPI, PostgreSQL, SQL, Docker, Redis, Git, Unit Testing, REST APIs
