SUMMARY

Machine learning engineer with experience training and deploying models for fraud detection.

EXPERIENCE

Machine Learning Engineer | Merlion Payments
Mar 2022 – Present
• Trained gradient boosting models with XGBoost and scikit-learn to flag fraudulent transactions.
• Deployed models as Docker containers on AWS with MLflow for experiment tracking.
• Built feature pipelines in Python and SQL processing 5 million events per day.
• Set up model monitoring for drift and cut false positives by 18%.
Data Scientist | Harbourview Analytics
Jul 2019 – Feb 2022
• Built churn prediction models and presented results to product stakeholders.
• Ran A/B tests to evaluate pricing experiments.

EDUCATION

M.Sc. in Computer Science, Straits Institute of Technology, 2017 – 2019

SKILLS

Technical: Python, SQL, scikit-learn, XGBoost, MLflow, Docker, AWS, Machine Learning, Model Evaluation, A/B Testing
Professional: Communication

CERTIFICATIONS

• AWS Certified Machine Learning – Specialty - Amazon Web Services, 2023
